The Presented Past is concerned with the differences between the comparatively static, well-understood way in which the past is presented in schools, museums and at historic sites compared to the approaches currently being explored in contemporary archaeology. It challenges the all-too-frequent representation of the past as something finished, understood and objective, rather than something that is 'constructed' and therefore open to co-existing interpretations and constant re-interpretation. Central to the book is the belief that the presentation of the past in school curricula and in museum and site interpretations will benefit from a greater use of non-documentary sources derived from archaeological study and oral histories. The book suggests that a view of the past incorporating a larger body of evidence and a wider variety of understanding will help to invigorate the way history is taught. The Presented Past will be of interest to teachers, archaeologists, cultural resource managers, in fact anyone who is concerned with how the past is presented. Post-O-level Studies in Modern Languages is a 14-chapter book that begins with an explanation of the changing structure of the sixth-form curriculum and the outlining of a model curriculum based on five areas of experience: communication; sociological and cultural aspects; mathematics; scientific education; and aesthetic experience. The book also discusses the transition from O-level to advanced studies; the study of literature in the A-level curriculum; and the French and literary studies in the sixth-form curriculum. Other chapters tackle the A-level examination syllabus, as well as some problems and suggestions in integrated language studies. Modern languages in industry and commerce, role of the language laboratory in post-O-level studies, and modern language tests in the United States are also explained. Cambridge O Level Mathematics is a resource to accompany the revised 4024 syllabus. This coursebook provides a complete course for developing and practising the skills required for the O Level Mathematics qualification. The content has been written to offer a range of tasks that support all aspects of the Cambridge O Level Mathematics syllabus (4024) giving students the confidence to use the mathematical techniques required to solve the range of maths problems required. With detailed explanations of concepts, worked examples and exercises, this coursebook can be used as a classroom text and for self-study. Basic skills tests (based on the National Standards for adult basic skills) were carried out between June 2002 and May 2003, on a sample of over eight thousand adults normally resident in England. The tests were combined with a background questionnaire (social survey). This report provides many detailed statistics but some of the the main findings are noted below. 44 per cent of the respondents achieved Level 2 or above in the literacy assessment, but 16 per cent were classified at Entry level 3. In the numeracy test, 25 per cent achieved Level 2 or above, but 47 per cent were classified at Entry level 3 or below. Overall, 47 per cent were classified at Entry level 3 or below, in either literacy or numeracy, and only 18 per cent achieved Level 2 or above for both literacy and numeracy. With the recent scrapping of GCSEs fresh in everyone's minds, The O Level Book is the perfect book to settle that age-old argument between the generations: were the exams of yesteryear really harder than anything children have to face today in the age of calculators and spell checkers? Are contemporary kids less intelligent than previous generations? Here is the chance to find out as the whole family pit their wits against one another in the ultimate generation game, contrasting the schooling of yesteryear with modern educational practices. Testing you on a range of old-school topics: English Language; General Science; Geography and History; Household Cookery; Mathematics. A wonderfully nostalgic yet testing anthology, The O Level Book encourages you to dust off your slide rules and get your thinking caps on to see who will come out on top in your family!
