For B.Com., BCA, BBA, MBA and as per the UGC Model Curriculum. This book discusses the proper use of legal language in business communication. While communicating, a business leader has to bear in mind the relevant legal framework, and be sure to never violate it. However, legal language in itself can be so complex and difficult that it is often unclear as to what meaning can be ascribed to different words and phrases used in a particular context. Also, while it's easy to say that there are certain limits to the law, those limits are not readily visible to the uninitiated; occasionally, even experts flounder. Exploring precisely these topics, the book will be of interest to students of business, law, and business communication; managers; lawyers; researchers; practitioners; and general readers alike. Communicating a message effectively needs precision—be it verbal or non-verbal. At the professional front, the accuracy of the message to be shared becomes all the more important as the business decisions may depend on the same. This book, in its second edition, continues to detail on the pre-requisites of communicating effectively in the corporate environment and generally. Beginning with an overview of business communication, the book educates on the principles of communication—oral and written. Divided into nine chapters, the first two chapters deal with oral communication and the next seven deal with different forms of written communication. The book teaches how to write effective letters and prepare persuasive resumé. The chapters are well-supported with many examples and illustrative exhibits wherever required. A new chapter (Chapter 9) has been added titled 'Writing to Communicate' which presents incorrect use of language and phrases that rob the text, be it a report or a letter, of authenticity and credibility. The chapter also presents correct use of the examples and the rationale or logic in the form of explanations. Designed as a textbook for the management students, this book would be equally useful for the management professionals and executives. Key features
