If you love music and have played an instrument for any length of time, chances are that you've thought about playing in a band. Life in a band can be a great adventure, but it's not always obvious how to get from playing by yourself to rocking out with a group. Luckily, we're here to

help. Being in a band isn't all show time and success—there's a lot of hard work involved before you're ever ready to step on a stage, but we'll give you step-by-step advice on everything from forming a band and practicing to songwriting and gear maintenance. Every band's journey is unique, but there are fundamental things you can do to help move toward your dream. Each chapter draws on the author's experience from seven years of band life with six completely different groups, so you get the knowledge of professional musicians without the same bumps and bruises they got along the way. About the Expert Matt Brunson is a vocalist, songwriter, and multi-instrumentalist specializing in guitar and bass. He has been playing music professionally for seven years and has been part of six different bands, ranging in style from indie folk to pop punk and alternative rock. He is a firm believer that good music comes from originality and staying true to yourself, not from having the most expensive gear or being signed to a major label. When he isn't songwriting or practicing for a gig, you can find him poring over the latest gear reviews, daydreaming of that perfect new guitar, gaming, or playing with his cats. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts. The amount of information that can be obtained by using molecular techniques in evolution, systematics and ecology has increased exponentially over the last ten years. The need for more rapid and efficient methods of data acquisition and analysis is growing accordingly. This manual presents some of the most important techniques for data acquisition developed over the last years. The choice and justification of data analysis techniques is also an important and critical aspect of modern phylogenetic and evolutionary analysis and so a considerable part of this volume addresses this important subject. The book is mainly written for students and researchers from evolutionary biology in search for methods to acquire data, but also from molecular biology who might be looking for information on how data are analyzed in an evolutionary context. To aid the user, information on web-located sites is included wherever possible. Approaches that will push the amount of information which systematics will

gather in the (Book). Making it in music has never been easy, but today it's harder than ever before. The digital age has dawned and, with it, the music biz has wholly merged with the entertainment industry. Up-and-comers are immediately faced with a dire choice: alter your art to appease the powers that be or learn to navigate the notoriously grimy underside of the most glamorous profession in the world. Whether you're a self-reliant DIY musician or an aspiring personal manager, Stephen Marcone and David Philp's *Managing Your Band Artist Management: The Ultimate Responsibility* can help you keep your shirt and maybe just maybe make a buck, all for less than the price of a decent dinner. A lofty claim, eh? No need to take our word for it luminaries in every corner of the industry are willing to testify. To put it mildly, the book has a reputation with record labels. John Butler, Vice President of Promotion at Curb, believes that "Marcone and Philp take on our ever-changing business with a fresh and complete approach. The breadth of information here is as important to veterans as it is to the new entrepreneurs that will power the current and next versions of the music industry." Paul Sinclair, the EVP of Digital Strategy & Innovation at Atlantic, attests that "the 6th edition of *Managing Your Band* provides an excellent blueprint to follow paths of flexibility and specificity toward a successful career in music. In this book, you find the framework. Implement it well and you have a better shot of finding success with your musical art." Joe Riccitelli, the EVP/GM of RCA, considers the book "a must for new and established managers who may need a brush-up on topics they have forgotten," as "Stephen's & David's vast experience pays off in the 6th edition." Hell, this is "the only book" music mogul Harvey Leeds "took to Israel to teach the Israelis about the international music and entertainment business!" In the end, we think Doc McGhee, the

man who whisked Bon Jovi and Motley Crue to superstardom, says it best: "I wish I had something like this when I was starting out!" What more can we say? Pick up the latest edition of *Managing Your Band* and chase that wild dream! David Venable, a six-time Boston Marathon finisher, has completed nearly 50 marathon/half-marathon events. In the past decade he transitioned from a novice mid-pack finisher to a top 1% finisher at distances from the 10K to the marathon at major venues. With international marathon experience to running in the extremes of Death Valley, Venable has compiled excellent experience applicable for marathoners that seek improvement or need an extra push to achieve a life goal. Compelled to coach other runners to personal bests and/or Boston qualification(s), he has written *Boston Bound*. Over five years of research went into *Boston Bound*, where Venable has captured a balance of proven training techniques, personal experience, and strategic approaches for running a fast marathon, with an inspiring addition of motivational stories. Unlike the books from elite running/authors that fill the shelves today, Venable writes and provides guidance from a non-elite runner's point of view with the key focus to run your fastest marathon while being realistic with the balance of work and family commitments. "Writing about yourself is a funny business...But in a project like this, the writer has made one promise, to show the reader his mind. In these pages, I've tried to do this."
—Bruce Springsteen, from the pages of *Born to Run* In 2009, Bruce Springsteen and the E Street Band performed at the Super Bowl's halftime show. The experience was so exhilarating that Bruce decided to write about it. That's how this extraordinary autobiography began. Over the

past seven years, Bruce Springsteen has privately devoted himself to writing the story of his life, bringing to these pages the same honesty, humor, and originality found in his songs. He describes growing up Catholic in Freehold, New Jersey, amid the poetry, danger, and darkness that fueled his imagination, leading up to the moment he refers to as "The Big Bang": seeing Elvis Presley's debut on The Ed Sullivan Show. He vividly recounts his relentless drive to become a musician, his early days as a bar band king in Asbury Park, and the rise of the E Street Band. With disarming candor, he also tells for the first time the story of the personal struggles that inspired his best work, and shows us why the song "Born to Run" reveals more than we previously realized. Born to Run will be revelatory for anyone who has ever enjoyed Bruce Springsteen, but this book is much more than a legendary rock star's memoir. This is a book for workers and dreamers, parents and children, lovers and loners, artists, freaks, or anyone who has ever wanted to be baptized in the holy river of rock and roll. Rarely has a performer told his own story with such force and sweep. Like many of his songs ("Thunder Road," "Badlands," "Darkness on the Edge of Town," "The River," "Born in the U.S.A.," "The Rising," and "The Ghost of Tom Joad," to name just a few), Bruce Springsteen's autobiography is written with the lyricism of a singular songwriter and the wisdom of a man who has thought deeply about his experiences.
