Modern Studies in Property Law - Volume 7 Nov 10 2021 This book contains a collection of peer reviewed papers presented at the ninth biennial Modern Studies in Property Law conference held at the University of Southampton in March 2012. It is the 7th volume to be published under the name of the conference. The conference and its published proceedings have become an established forum for property lawyers from around the world to showcase current research in the discipline. This collection reflects both the breadth of modern research in property law and its international dimensions. Incorporating a keynote address by Lord Walker of Gestingthorpe, retired Justice of the Supreme Court, on 'The Saga of Strasbourg and Social Housing,' a number of chapters reveal the burgeoning influence of human rights in property law. Other contributions illustrate an enduring need to question and explore fundamental concepts of the subject alongside new and emerging areas of study. Collectively the chapters demonstrate the importance and relevance of property research in addressing a wide range of contemporary issues.

nothing! The best thing is conscious inertia! So long live the underground! Alienated from society and paralysed by a sense of his own insignificance, the anonymous narrator of Dostoyevsky's groundbreaking *Notes from Underground* tells the story of his tortured life. With bitter sarcasm, he describes his refusal to become a worker in the 'ant-hill' of society and his gradual withdrawal to an existence 'underground'. The seemingly ordinary world of St Petersburg takes on a nightmarish quality in *The Double* when a government clerk encounters a man who exactly resembles him - his double perhaps, or possibly the darker side of his own personality. Like *Notes from Underground*, this is a masterly study of human consciousness. Jessie Coulson's introduction discusses the stories' critical reception and the themes they share with Dostoyevsky's great novels.

Mr. Frank Sep 27 2020 Excerpt from Mr. Frank: *The Underground Mail-Agent Kind Reader*, we must confess that we are so stupid, as not to know how to write a Preface; and, in fact, we do not even know why any Preface should be written at all! We have looked very carefully over all the books in our library, from Cobb's *Primer* up to Bulwer's last novel, for a model, and we are sorry to say, that we have not been able to find one to suit us; and we do not pretend to a tithe of the fastidiousness of our readers - especially in regard to our own productions. We have found in our researches alluded to, that many authors look upon a Preface as a space devoted to a little tete-a-tete with their readers; in which they apologize to them for punishing their good nature with another book. Others consider it as a kind of platform on which to define their position, and to explain their motives for writing at all - a matter which is not unfrequently very difficult of comprehension. This species of information, however, we look upon as entirely gratuitous; because, if the motives of the author are good, they should appear in the body of his work, and if they are not, why - the least that is said, the better. The Moral Underground Apr 27 2023 A "fascinating" look at the disconnect between corporate policies and workers' real lives—and the everyday heroes who try to help (Publishers Weekly). For the poor, there are challenges every day that they don't have extra money to solve: a sick kid, car trouble, an unexpected dentist bill. The obstacles can make it harder to hold on to a job—but a job loss would be catastrophic. However, there are countless unsung heroes who bend or break the rules to help those millions of Americans with impossible schedules, paychecks, and lives make it from paycheck to paycheck. This book tells their stories. Whether it's a nurse choosing to treat an uninsured child, a supervisor deciding to overlook infractions, or a restaurant manager sneaking food to a worker's children, middle-class Americans are secretly refusing to be complicit in a fundamentally unfair system that puts a decent life beyond the reach of the working poor. In this tale of a kind of economic disobedience—told in whispers to Lisa Dodson over the course of eight years of research across the country—hundreds of supervisors, teachers, and health care professionals describe intentional acts of defiance that together tell the story of a quiet revolt, of a moral underground that has grown in response to an immoral economy. It documents a whole new phenomenon—people reaching across America's economic fault line—and provides an account of the human consequences and lives behind the business-page headlines. "If only this book had been published in 2007. Then the hundreds of people interviewed by Lisa Dodson would have been able to pass along an important piece of advice: What's good for business is not necessarily good for America." —Time

Not Your Ordinary Vietnam War Stories Dec 19 2019 After graduating from the University of Missouri in 1969 I was commissioned as an officer in the Marines. I served an interesting tour of duty in Southeast Asia in 1972, during which time I was in and out of six different countries including Vietnam. A greenhorn lieutenant when I landed, I was eventually promoted to captain. Because of my God given take charge personality and a few very junior officer notable accomplishments I found myself frequently being handpicked for special assignments. I saw action with seven different units some good some bad some ugly. I saw men die. I saw capable men withered by fatigue, brave men crippled by fear. Since I served, more than forty years ago now, I have had the pleasure and privilege of meeting and getting to know hundreds of fellow-Vietnam Vets; short term acquaintances, professional colleagues, neighbors, close friends, family members. Although our individual Vietnam stories are unique and intensely personal, I have come to realize that a common thread runs through most of them. For more than twenty-five years I have been asked to formally speak to sundry civic organizations, history classes, and social gatherings. As a result of

fielding thousands of audience questions and listening to their spontaneous reactions to my talks I have learned what people are interesting in hearing. I have seen their reactions to my version of Americas Vietnam experience. I know whats interesting and whats not; whats important to those who werent there, ordinary people who merely wonder what it was like. I have enjoyed two successful careers and am currently embarked upon my third. I have fired most of lifes best bullets, emptied most of my chosen weapons most precious magazines, drained my fullest canteens, exhausted most of my allotted time on this fair planet we call earth. I want to share a few of the stories of men I served with, men I came to know later in life, men I loved as brothers-in-arms surviving in harms way; or men who were simply Crazy Vietnam Vets (like me) with a special story to tell. Men JUST like meonly different! Ours are interesting up and down tales of wonder and weird, of good times and bad. I am happily married to a seasoned school nurse, am the father of three college educated sons, and have two fine grandsons. I live in Blanco, Texas about forty miles due west of Austin. I have always viewed lifes glass as half full; hope you enjoy our Not Ordinary war stories.

Notes from Underground and the Double May 16 2022 Collected here in Penguin Classics are two of Fyodor Dostoyevsky's shorter works, Notes from Underground and The Double, translated by Ronald Wilks with an introduction by Robert Louis Jackson. Alienated from society and paralysed by a sense of his own insignificance, the anonymous narrator of Dostoyevsky's groundbreaking Notes from Underground tells the story of his tortured life. With bitter irony, he describes his refusal to become a worker in the 'anthill' of society and his gradual withdrawal to an existence 'underground'. The seemingly ordinary world of St Petersburg takes on a nightmarish quality in The Double when a government clerk encounters a man who looks exactly like him - his double, perhaps, or possibly the darker side of his own personality. Like Notes from Underground, this is a masterly tragicomic study of human consciousness. Ronald Wilks's extraordinary new translation is accompanied here by an introduction by Robert Louis Jackson discussing these pivotal works in the context of Dostoyevsky's life and times. This edition also contains a chronology, bibliography, table of ranks and notes on each work. Fyodor Mikhailovich Dostoyevsky (1821-1881) was born in Moscow. From 1849-54 he lived in a convict prison, and in later years his passion for gambling led him deeply into debt. His other works available in Penguin Classics include Crime and Punishment, The Brothers Karamazov, The Idiot and Demons. If you enjoyed Notes from Underground and The Double, you might like Dostoyevsky's Demons, also available in Penguin Classics. 'Notes from Underground, with its mood of intellectual irony and alienation, can be seen as the first modern novel ... That sense of meaninglessness of existence that runs through much of twentieth-century writing - from Conrad and Kafka, to Beckett and beyond - starts in Dostoyevsky's work' Malcolm Bradbury

Underground Church Jul 18 2022 What If the Church Truly Empowered People to Engage in God's Mission? Something extraordinary has been happening in Tampa, Florida. A new expression of the church has been quietly growing. It's something of an experiment, but over the last ten years the church has been validating its ideas with sustained and growing results. At The Underground, being the church is not focused around a weekly gathering or church programs. It's about empowering individuals to respond to God's call to ministry and mission, especially to the poor and disadvantaged in our midst. While many churches talk about discerning calling and engaging in mission, very few are structured to make this their ministry focus. Underground Church is a new vision for the church rooted in its biblical mission to share the love of God and serve the poor. Sanders explores how to make structural changes, how to think about leadership, how to fund ministries, and how to truly engage people in God's mission. Filled with creative insights, he explains what it means to center the mission of the church around the callings of individuals to outward ministry - whether that involves leading Bible studies in the workplace, feeding the homeless, or working to free women and children from sex trafficking. This book will both tell the inspiring story of a church that is rethinking what church looks like while also outlining and uncovering the principles that transfer for every church and Christian community that hopes for more. It's the true story of a 10-year experiment that unpacks the possibilities of a church structured and streamlined for mission. X

The Way to Go Jun 24 2020 This publication examines a variety of cases that demonstrate the aesthetic quality of transportation projects. These range from the relatively inexpensive painted "Gus Bus" in Grand Rapids to the large-scale project of designing the Montreal Metro. The purpose is to develop a fresh perspective on ways the visual appeal of transportation can be identified as a distinct element for consideration, and on the degree to which quality design contributes to the economics and function of transportation systems. A second purpose is to develop guidance and examples to assist transportation planners and citizens in dealing with these issues. The projects presented represent a wide range of costs and circumstances encountered in transportation planning. The study shows that the aesthetic benefits provided by quality materials, sensitive design, careful maintenance, and appropriate inclusion of works of art translate directly into increased patronage, cost efficiencies, and a better public environment.
